Health, Safety and Environmental Policy Statement

European Management and Marine Corporation, recognise that Health, Safety and care of the Environment are integral parts of our business processes.

The Company is committed to the highest levels of Health Safety & Environmental (HS&E) performance, with compliance to legal requirements being the minimum acceptable standard of that performance, as far as reasonably practicable.

In order to satisfy the above, and ensure cost effective, continuous improvement of the level of performance, the company shall document, implement and maintain the Health, Safety and Environmental Management System and shall also;

Provide adequate resources to ensure the implementation of the activities outlined in this policy statement,

Identify and assess HS&E risks to ensure that appropriate mitigation control measures are in place to reduce risk to an acceptable level.

Be committed to minimizing any adverse Environmental impacts associated with our operations by;

- Good management in fuels and other hazardous materials associated with production facilities and take all essential measures to prevent pollution.
- Improving energy efficiency of process and operations,
- Reducing waste and promoting reuse,
- Recycling and the use of recycled products where possible.

Set and regularly review internal health, safety and environmental objectives and targets,

Set an example through leadership and place the management of HS&E as a prime responsibility of all personnel throughout the organization.

To involve all employees in consultation on HS&E activities, through appointed safety representatives, and thus gain staff commitment to this policy.

Ensure that employees at all levels within the company receive appropriate training as required and are competent to carry out their duties and responsibilities.

Regularly monitor our performance and carry out periodic review of the HS&E management system to ensure continued compliance and improvement of this policy.

This policy is endorsed by the Managing director to demonstrate the commitment of senior Management to the implementation and adherence of this policy through the Health, Safety and Environmental Management system.

Signed.......... Managing Director
