European Management and Marine Corporation (EMM) recognises their legal and ethical responsibility to ensure, so far as is reasonably practicable, the Health, Safety and Welfare of their Employee’s and Others, including the protection of the Environment, from any hazards associated with the Company’s work processes.

We believe that good Health, Safety, Welfare and Environmental performance is the key to the long term success of the company, that it is good for business and is therefore an essential part of the overall EMM business plan by providing a framework for setting HSW&E objectives.

Every employee is responsible and accountable for their own and others Health, Safety and Welfare and protection of the environment. In order to comply with the requirements of ISO 45001:2018, 14001:2015 and our obligatory legal requirements, Top Management at European Management and Marine Corporation are:

EFFECTIVELY MANAGING HSW&E BY:
- Ensuring that HSW&E is an integral part of business.
- Making people responsible and accountable for activities required to implement this policy.
- Ensuring that responsibilities and authorities for relevant roles are identified and communicated throughout the Organisation.
- Communicating openly with our Employees, Customers and Interested Parties on our HSW&E objectives and performance.
- Ensuring the availability of resources to establish, implement, maintain and improve the HSW&E Management Systems.

ELIMINATING HAZARDS AND REDUCING HSW&E RISK BY:
- Identifying and assessing HSW&E hazards and risk, and by preventing, controlling or reducing risk to the lowest reasonably practicable level.
- Regularly reviewing our working methods and industry best practice to identify opportunities for improvement.
- Providing a Safe System of Work for potentially hazardous activities carried out on and offsite.
- Ensuring Safe Access and Egress around the Workplace.
- Ensuring Safe use, handling, storage and transportation of hazardous substances and articles.

INVOLVING AND CONSULTING WITH OUR EMPLOYEES BY:
- Providing them with appropriate HSW&E information, instruction, training and supervision.
- Encouraging their participation and ideas in improving HSW&E performance and commending good HSW&E performance.
- Providing processes for the consultation and participation of employees at all levels within the Organisation.
- Listening and addressing their concerns about Health Safety Welfare and Environmental issues.

COMPLYING WITH LEGISLATION, CODES OF PRACTICE AND STANDARDS BY:
- Keeping abreast of, interpreting and complying with relevant legal requirements and other requirements, regulations, codes of practice and industry standards, and by taking any additional measures we consider necessary.
- Working with our industry, our customers, interested parties and the relevant enforcing authorities to influence effective legislation and standards.

CONTINUOUSLY IMPROVING OUR HSE PERFORMANCE BY:
- Investigating, and analysing incidents, HSE Observations and, where necessary implementing remedial actions.
- Regularly assessing our wastes, emissions and discharges in order to prevent environmental pollution.
- Monitoring, auditing and providing feedback on our HSE Management Systems performance.
- Initiating and prioritising improvements to our HSE Management Systems, based on the assessment of risk and opportunities, HSE plans, HSE Management Reviews, continual monitoring and audits.
- Setting demanding yet achievable objectives and targets for improvement of our HSE Management Systems and performance.

Top Management of European Management and Marine Corporation receive regular reports on the status of our Health, Safety and Environmental Management System activities and performance. We use this information to monitor our progress and drive success towards achieving the goals and objectives set up by our overall HS&E Plan, our Continuous Improvement Plan, including ensuring the improved welfare of our employees.
